FACT BOOK

A Guide to the Racing Industry in Australia

2001-2002

Published by the Australian Racing Board
December 2002
The Australian Racing Board is pleased to introduce the fourth edition of The Australian Racing Fact Book, our annual reference guide to the Australian thoroughbred racing industry.

It would not be sensible to say that every Australian has an interest in horse racing. Many do not. But in an age where the choice of sports to follow and recreational outlets to enjoy is practically without limit, who would expect that?

What one can say without fear of contradiction is that Australian society has an affinity with horse racing that is unparalleled anywhere in the world. Mention racing in almost any social gathering and someone present will own a share of a racehorse, or will have a relative or a friend who races a horse. At the very least they will participate some way in the Melbourne Cup.

And as we approach almost 200 years of racing on this continent, Australian racing is enjoying heightened popularity. Names like Northerly and Sunline are known by almost everyone, overseas stables have a growing interest in our premier races, and carnivals across Australia are drawing bigger and younger attendances.

In these circumstances it is not surprising there is a high level of demand for records relating to the health and performance of the industry. There are, of course, a number of other sources of this information but over the past three years the Fact Book has established itself as a handy and reliable guide to any person seeking information on major aspects of the industry.

Compiling the Fact Book always depends on the cooperation of a range of people and organisations. Our genuine thanks are expressed to them for their willing assistance.

Bob Charley

The Australian Racing Board was established in 1998 to replace the Australian Conference of Principal Clubs and the National Office of Australian Racing. It is constituted by 16 members, two from each of the 8 Principal Clubs in Australia, and has an independent non-voting Chairman. The executive functions of the Board are discharged and managed by its Executive Officer.

The functions of the Australian Racing Board are threefold:

(i) to act as the peak national administration body for the Australian Thoroughbred Racing Industry;

(ii) to initiate, develop and implement policies conducive to the enhancement and well-being of the Australian Thoroughbred Racing Industry; and

(iii) to make and amend the Australian Rules of Racing so as to provide throughout Australia uniform practices, conditions and integrity standards for thoroughbred racing.

National Administration

In matters of national administration the Australian Racing Board is assisted by the advice and recommendations of advisory groups that have been established in each of the following areas:

· Stewards
   The Stewards play a key role in industry administration. They have a hands-on responsibility for maintaining fair racing and for supervising and enforcing the industry’s probity and integrity standards. They are also involved in maintaining and improving equine welfare and the welfare and safety of industry participants. This group is instrumental in assisting in the formulating of racing policy, especially in relation to proposals for the alteration of the Australian Rules of Racing.

· Equine Integrity and Welfare
   This group assists the ARB to ensure that only fit and drug-free horses compete in races on which betting is conducted. This includes framing the industry’s regime for the control of drugs, determining which substances are prohibited, setting threshold levels and approving analytical laboratories. The group also advises on equine welfare issues.

· Racing
   The racing managers advisory group provides a vehicle for advice to the ARB on matters relating to the preparation and staging of races, including handicapping, classification of races, and the national co-ordination of feature race meetings.

· National Handicappers
   This committee acts to harmonise the handicapping methods within Australia (and New Zealand) so as to ensure an equitable Classification listing. Together with New Zealand officials the committee publishes the Classifications at the end of each season. The Classifications identify horses of superior ability and provide the Racing and Breeding industry with an annual performance related means of assessing the ability of the thoroughbreds included.

Australian Racing Board (cont.)

· Australian Group and Listed Races
   This group assists the ARB in determining which Australian races are worthy of "black type". Of great importance within Australia to race clubs, breeders and owners, the listings of Group and Listed races approved and published by the ARB are accepted by the International Cataloguing Standards Committee for publication in "The Blue Book", thereby achieving international recognition for Australia’s best races.

· Marketing
   The Board is committed to promoting thoroughbred racing nationally. This group has been established to develop a single-brand entity and advertising umbrella for the industry, and is responsible for national marketing initiatives generally.

· Industry Training
   This group has responsibility for devising and recommending national industry vocational training programmes, representation of thoroughbred racing at a National Industry Training Advisory Board (ITAB) level, and interfacing with the Australian National Training Authority (ANTA).

· Information Technology
   The purpose of this group is to advise the ARB on the innovative and effective use of advancing technologies. The goal of the group is to grow the business of thoroughbred racing through achieving economies of scale and the identification of new opportunities.

· Australian Rules
   This group has principal responsibility for reviewing or initiating proposals to amend the Australian Rules of Racing, and advising the ARB in that regard.

International Racing

Internationally, the Australian Racing Board is the Secretariat Office of the Asian Racing Federation and a founding Member of the International Federation of Horseracing Authorities. The Federation is in turn the parent body of such groups as the International Stud Book Committee and the International Cataloguing Standards Committee and is responsible for the International Agreement on Breeding and Racing.

AUSTRALIAN RULES OF RACING

The Australian Racing Board is the only authority that is empowered to make the Australian Rules of Racing which for almost a century have provided common practices, conditions and integrity standards for racing throughout Australia.

The individual State and Territory racing administrations may make Local Rules for specific local conditions provided that they are not inconsistent with the principles established by the Australian Rules.
Australian Racing Board (cont.)

Broadly described, there are nine parts to the Australian Rules:

i. Interpretation
ii. Stewards
   (Providing for the appointment, functions and powers of the Stewards)
iii. Registration
   (Providing for the registration of race clubs and race meetings and the appointment, functions and powers of the Registrar of Racehorses)
iv. Race meetings
   (Providing uniform conditions for the conduct of race meetings, including nominations and acceptances, stakes and forfeits, weight penalties and allowances, scratching, weighing out and weighing in, starting, running, judging and protests)
v. Licensing
   (Providing for the licensing of jockeys, apprentice jockeys, amateur riders and trainers, their movement between States and outside Australia, apprentices allowances, rider safety)
vi. Syndicates
   (Regulating the formation, conduct and termination of racing syndicates)
vii. Offences
   (Proscribing dishonest, corrupt, fraudulent, improper or dishonourable actions or practices in connection with racing, including setting out the regime relating to prohibited substances)
viii. Penalties
   (Providing the penalties of fines, suspension, disqualification, warning off)
ix. Constitutional
   (Providing the structure, powers and functions of the Australian Racing Board)

The major benefits of the Australian Rules have been:

(i) Free traffic between States.
Uniform rules allow horses, trainers and jockeys to move freely between States.

(ii) Mutual recognition of disciplinary and protective action.
The Australian Rules provide a disciplinary code that has been tested to the level of the Privy Council, and allow mutual recognition of disciplinary and protective actions across the Commonwealth and internationally.

(iii) Conduct of wagering
The Australian Rules empower the State and Territory Principal Clubs to license bookmakers who, together with on-course and off-course totalisators, transact wagering operations on thoroughbred horse races, in the order of $5 billion annually.

Australian Racing Board (cont.)

(iv) International
Racing and wagering are globalising rapidly. The Australian Rules are recognised by international racing authorities and wagering operators.

PRINCIPAL CLUBS

The Australian Racing Board is an association of the six State and two Territory racing authorities, which are recognised by the Australian Rules as Principal Clubs or controlling bodies. The requirements for recognition are that a Principal Club must:

(i) have the general supervision and control of racing in its territory; and
(ii) not have any member who is a direct government appointee.

The Principal Clubs in each State and Territory are as follows:

New South Wales                  NSW Thoroughbred Racing Board
Victoria                           Racing Victoria Limited
Queensland                         Queensland Racing
Western Australia                 Western Australian Turf Club
South Australia                   Thoroughbred Racing S.A. Limited
Northern Territory                Darwin Turf Club
Tasmania                           Tasmanian Thoroughbred Racing Council
Australian Capital Territory      Canberra Racing Club Inc.

In discharging its responsibility for the control and supervision of thoroughbred racing in its territory each of these bodies has such functions as:-

- Registering and supervising race clubs
- Licensing trainers, jockeys, bookmakers, bookmakers’ clerks and other industry participants
- Handicapping
- Industry Marketing
- Industry Publications
- Administration of industry funding
- Appointing Stewards’ panels to apply the Rules of Racing
- Industry strategic planning

Top Australian Prizemoney Earners

Prizemoney is a key indicator of the economic health of the industry. Total prizemoney across the nation continues to increase steadily.

Incentive schemes are now being offered in all states after the recent introduction of the Breeder Owner Bonus Scheme (BORS) in NSW*. Over $6 million was paid in 2001/02 through the Victorian SuperVOBIS scheme.

Prizemoney has increased by over 150% since the late eighties, and incentive schemes for owners and breeders have increased dramatically since 1995.

*not included in 2001/2002 figures.

AUSTRALIA’S CHAMPION RACEHORSE OF THE YEAR

The awards night for Australia’s Champion Racehorse of the Year 2002 was held in August. Executive members of Principal Race clubs and members of the Australian Racing Writers Association vote for the awards, with Sunline, the record-breaking mare from New South Wales, winning the top award for the third year running.

The winners for all categories in 2000/02 were:
- **Champion Horse of the Year**: Sunline
- **Champion Two Year Old**: Victory Vein
- **Champion Stayer**: Ethereal (NZ)
- **Champion Three Year Old**: St. Steven
- **Champion Sprinter**: Red Emperor
- **Champion Middle Distance**: Falvelon
- **Champion Mare**: Falvelon
- **Champion Three Year Old**: Falvelon

FOAL CROP

The Australian thoroughbred breeding industry is one of the largest and most efficient in the world. The number of foals born as a percentage of mares returned has climbed steadily over this thirty-year period reflecting ever-increasing efficiency in the breeding sector.

Please note: All figures are correct as of September 2002.

2001/2002 AUSTRALIAN AUCTION SALES

Accounting for more than half the total number of thoroughbreds sold at public auction and with dollar volume far eclipsing that of any other category, yearling sales provide an excellent indicator of the health of the market. The average yearling price has grown steadily through the last decade.

Apart from a slight decline in the number of Yearlings sold, the value and number of sales increased over last year in all categories. Top prices paid also increased remarkably, with sale prices up to $1.5 million at the Australian Easter Yearling sales.

Exports and Imports

Australian bloodstock is well regarded worldwide. In recent years the number of exports has increased significantly over that of the last decade, and has remained strong through the last season.

Industry Trends 1986-2002

Between the mid-eighties and the early part of this decade, the annual foil crop was relatively stable. This was followed by a sharp decrease during the next three seasons linked to generally difficult economic conditions. Foil crops have remained steady during the past 8 seasons.

Although in the period 1986-2002 the number of races run has decreased slightly, total prizemoney has increased by over 100%. Incentive Schemes have also more than doubled since the mid nineties.

Australia-New Zealand Classifications

The Australia-New Zealand Classifications represents, on an annual basis by way of an agreed criteria, the assessments of the quality performers from the Australasian thoroughbred racing season.

For consideration a horse must have finished in the first six places in a Group One event or place in the first four in a Group Two. Three or Listed event in Australia, New Zealand or another performance worthy of inclusion.

The weight allotted each horse represents an assessment for a race within the indicated distance range at the end of the racing season in July.

## International (cont.)

### International Foal Crops 2001

With over 11,000 breeders in metropolitan and country areas, Australia is second only behind the United States in annual foal births, accounting for 65% of foals born worldwide. Australia also has the second highest stallion and broodmare population behind the USA.
International (cont.)

Worldwide Prizemoney

Australia, Japan and the United States continue to offer the most prizemoney in a comparison of leading racing nations, with Australia offering significantly more than other countries including Hong Kong, Great Britain and France.

Worldwide Prizemoney 2001

International (cont.)

Doping Control of Horses 2001

A policy of strict drug control is vital in maintaining a fair and successful Australian racing industry. As race meetings across Australia during 2001 over 3000 samples were taken.
