The Australian foal crop remained strong this year from an international perspective with Australia accounting for 17% of the foals born worldwide. Australia was also second only to the USA in stallion and broodmare numbers.

Chart 17. International Foal Crops 2002
The USA and Japan continued to lead the world in the amount of prizemoney offered in 2002, offering well over a billion dollars respectively. Australia contributed strongly with (AU) $318,150,688, the third largest amount of prizemoney offered. Hong Kong and the United Arab Emirates offered the highest average prizemoney per race as these nations offer substantial prizemoney but run significantly less races compared to other leading racing nations.

Chart 18. Worldwide Prizemoney 2002
Australia maintains a strict drug control policy to ensure that its racing is clean and fair. Taking this strong position is important for both horse welfare and the integrity of the industry as drug free racing ensures the sport is highly regarded in the public eye both domestically and internationally. During 2002 the three major racing analytical laboratories in Australia (located in Sydney, Melbourne and Brisbane) analysed some 27,000 samples, finding only 0.2% of these positive to banned substances.
