

MEDIA RELEASE

STATEMENT FROM RACING AUSTRALIA EQUINE WELFARE

Racing Australia welcomes the initiative of the Thoroughbred Breeders Association (TBA) to form a taskforce to appraise the critical issue of equine welfare.

Racing Australia, our State and Territory Principal Racing Authorities and the Thoroughbred Breeders Association (TBA) share a common aspiration of elevating the quality of equine welfare in Australia to ensure Australia is regarded as being the standard bearer within global thoroughbred racing.

The State and Territory Principal Racing Authorities in collaboration with Racing Australia, have a clear strategy and set of actions that ultimately culminate in Australian racing realising its aspiration for equine welfare.

Principal Racing Authorities and Racing Australia's focus remains on developing and implementing strategies and industry developments all of which are aimed at augmenting our extensive endeavours of providing effective equine welfare outcomes.
