Media Release

17 December 2015

Racing Australia inaugural Annual Report

The watershed merger in April, 2015 of the Australian Racing Board (ARB), Racing Information Services Australia (RISA) and the Australian Stud Book (ASB) to establish Racing Australia fulfilled the long-time aim of a single national body with substantial assets and powers to regulate and develop the Thoroughbred Racing and Breeding Industry.

The 2015 Racing Australia Annual Report is a first, as neither RISA nor the ASB had previously published annual reports. The Annual Report provides an extensive insight into Racing Australia's strategy, operations and financials.

Racing Australia is committed to the highest ethical and corporate standards and presents its Annual Report in a wholly transparent and accountable manner. To this end, the Racing Australia Constitution, Monthly Service Performance Reports and Barrier Draw Audit reports are permanently available on the Racing Australia website.

The Annual report is available on the Racing Australia website.
